Bench DeLuxe Anthracite-Concrete

Product code: BB.DL.AB

£ 1,850.00 excl. VAT
(£ 2,220.00 incl. VAT)

A sturdy, robust concrete bench with a very refined bamboo seating area. The anthracite colour applies to the entire bench, because it is cast from anthracite coloured concrete. This gives the DeLuxe anthracite concrete bench that contemporary concrete look. The refinement of the concrete bench lies in the seat, which is made of bamboo. Bamboo, like concrete, is strong, solid and durable. So the bamboo top is the perfect complement to the concrete base.

Go for safety and comfort with the deluxe anthracite bench

The bamboo seat of the concrete bench guarantees a comfortable seat. The concrete of the bench also makes it possible to use the bench as a partition for a site or entrance, or as protection against burglary or vandalism. The DeLuxe anthracite concrete bench provides protection and safety. Do you think the concrete look does not suit your space? Then choose the same strength in the DeLuxe anthracite bench with bamboo seat. This bench is sleekly lacquered in anthracite colour. If you prefer a more natural look, then the natural concrete bench with bamboo seat is an easy choice.

Combine the deluxe anthracite concrete bench with a picnic set
All HeBlad products are made in-house and are often made of concrete. That is why the possibilities for combinations are endless, because many items can be placed nicely together without it looking messy. Our picnic sets are a wonderful example to use as an extension of the DeLuxe anthracite concrete bench. We have both the concrete benches and the picnic sets in various designs. Natural concrete, anthracite concrete or anthracite lacquered. But also with or without a bamboo seat. Tastes differ, and HeBlad offers something for everyone.

Ask your questions about the deluxe anthracite concrete bench
You can be assured of years of enjoyment from the DeLuxe anthracite concrete bench because of its solidity and weather resistance. Are you afraid that the concrete bench is not suitable for your site? It may be wise to use the base plate to place the DeLuxe anthracite concrete bench on for more stability. If you have any questions, please contact us, we will be happy to advise you.
