Concrete Ping-pong table green

Product code: PP.GR

£ 2,650.00 excl. VAT

(£ 3,180.00 incl. VAT)

This rectangular ping-pong table with a green playing surface is a recreational tournament table for outdoor sport. Because this table is reinforced with double layers of steel (above and below) it resists all wind and weather conditions: good for many years and a lot of joy of playing.

The ping-pong table is moulded in one piece, that means also the "net" in the middle is solid concrete. The playing surface is sprayed in green with a two-component lacquer. The white lining and the "net" are not stickered but solid paint and lacquer.

Our products are delivered from our factory in the Netherlands. 16 April 2024 - Prices subject to change

Concrete Ping-pong table green, rounded

Product code: PP.AR.GR

£ 2,750.00 excl. VAT

(£ 3,300.00 incl. VAT)

Because this ping-pong table has rounded corners the chance of injury is much less. Young children play a "round the table" without getting hurt at the corners. The green two-component lacquer and the white lining and white "net" gives the table a fresh appearance. This playing equipment is provided with strong double steel layers above and below. This makes the table as strong as iron. In addition to that our tables cannot be dismantled. The table surface, the net and the table legs are one complete unit. Not a single screw is used.

Ping-pong table rounded, Anthracite-Concrete

Product code: PP.AR.AB

£ 2,850.00 excl. VAT

(£ 3,420.00 incl. VAT)

A Ping-pong table with rounded corners in an exquisite anthracite color. Less noticeable than the blue or green version, this color gives a stylish appearance. This table is made of concrete, colored through and through in anthracite, small damages are hardly visible because the inside has the same color as the outside.

Like all our other tables, the Ping-pong table is moulded in one piece of concrete and resistant to all weather influences.

Concrete base plate for tennis table

Product code: OP.PP

£ 1,800.00 excl. VAT

(£ 2,160.00 incl. VAT)

A frequently heard complaint is that the grass under the ping pong tables is difficult to mow. This problem is solved immediately with a bottom plate. The concrete bottom plate has a size of 179 x 299 cm and is 10 cm thick. This way the space under the table remains free of grass and is easy to keep clean.

This bottom plate is suitable for rectangular and rounded table tennis tables. Also available with grass tiles around (OP.PP.TG).

Our products are delivered from our factory in the Netherlands. 16 April 2024 - Prices subject to change

A set of support blocks for different tables

Product code: OV.PP.SET

£ 1,150.00 excl. VAT

(£ 1,380.00 incl. VAT)

A set of support blocks in natural concrete.

Dimensions are 122.5 x 20 x 6.5 cm.

This set consists of 2 concrete plates that are suitable for mounting on the bottom of table tennis table legs.

The set is suitable for all our ping pong tables, football volleyball tables and football tables.

Because the concrete slabs are 5 cm larger than the table legs after installation, the pressure per cm² is more than halved, so that the table cannot sink as quickly on softer surfaces. Think of the surface of wood chips or in sand.

There is also an advantage when you place these under feet under the table legs in the grass. It is then much easier to cut the grass against the legs.

Price only valid in combination with a ping pong table.

Checkers/Drafts Table Natural Concrete (2P)

Product code: GT.CK.2

£ 2,975.00 excl. VAT

(£ 3,570.00 incl. VAT)

This concrete set consists of a bottom plate with a draughts table and two seats. Very elegant looking table to play on, suitable for any place where Young and Old are looking for entertainment and fun.

The 100 fields (50 white and 50 black) are made of marble and hard granite rock, natural stones, which are integrated into the concrete by us.

The bottom plate measures 59 x 149 cm. By removing 2 x 5 paving stones from the schoolyard a space of 60 x 150 cm is created. We want to place the table in this "gap" so that the bottom plate is fully integrated into the schoolyards pavement.

In case, you want to place the table in a park, the plate can be levelled with the grass so that the upper side of the concrete plate matches the cutting height.

Placing is included in the price. Preliminary work must be finished before delivery. Like all other tables and benches of HeBlad, this table is moulded entirely in one piece of high quality concrete.

This concrete Chess Table is made of natural concrete. The "Concrete-look" is an imposing picture.

Ludo Game Table Anthracite-Concrete (4P)

Product code: GT.LD.AB4

£ 3,425.00 excl. VAT

(£ 4,110.00 incl. VAT)

This is an ideal Game Table for a primary school or a playground. The design makes it an eye catcher. This Ludo Game Table is molded in one piece of concrete, no loose parts, so it is safe. The game surfaces are of natural stone, processed by us in concrete. A game can be played on it, but it is also suitable as a table for a bite to eat. Because the underplate is placed at the same level as the existing pavement, it is also easy to keep the area neat around the Game Table. This Game Table is available in various versions, see also Chess Table, Checkers Table or just a table to play on. You can choose the Anthracite-Concrete or Natural Concrete version.

* When ordering this Game Table you will get 1 set of pawns and a dice free of charge.

£ 2,550.00 excl. VAT

(£ 3,060.00 incl. VAT)

This concrete table is equipped with concrete benches.

The entire set is made of colored concrete. This means that the anthracite color is not created by painting, but the concrete is also colored anthracite inside. Thanks to this method of colors, the concrete look of a concrete table has been retained.

This beautiful picnic table coloured in anthracite with bamboo planks is a delight for the eye. Our picnic tables differ from others by their relaxed sitting position, this has everything to do with the distance and height between the seat and the tabletop. Next to public places it is also appropriate for a nice spot in your own garden, to sit down in a relaxed atmosphere and enjoy a snack or drink. Like all other tables by HeBlad this picnic table is moulded as well in one piece and cannot be dismantled. This adds to safety and discourages vandals.

Picnic table DeLuxe Natural Concrete Wheelchair accessible

Product code: PS_DL_RT

Special picnic table for a wheelchair user. Because user of wheelchairs can never pull up to a picnic table, we have designed this table. The wheelchair user can easily get close to the rest of the group of people around the table.

At one side the tabletop is extended by 60 cm. Also the whole undercarriage is slightly higher to create free space for the legs of 60 cm depth and 71 cm height. Because the table is slightly higher, people with leg problems can easily sit at the table.

This concrete table is very large and has an exceptionally strong construction. The fact that the legs and the seats are moulded together with the table plate it is almost impossible for the user to move the table and that means also that it is vandal proof.

There are a lot of places where this picnic table can be useful. This table is very convenient for sporting clubs, because a complete football team can sit at it, but also for schools to take some outdoor lesson in good weather. Of course this table is not only suitable for outside lesson but also ideal for an enjoyable get together.

This concrete standing table ideally placed on terraces of restaurants, hotels or pubs, it would also be a credit to a schoolyard or canteen of a sport club. Due to the heavy weight of the bottom plate the standing table is hardly to overturn. The bottom plate has the same measurements as the tabletop. The direct surrounding can easily be cleaned. The bottom plate is very comfortable to stand on, like at a bar.

You need to know, that the standing table cannot be moved with a pallet truck. The standing table can only be placed directly from the delivering truck onto the final destination. The crane can only bridge a distance of 5 meters.

This concrete standing table looks chic because of the anthracite colour. This standing table is ideal on a terrace of a hotel, restaurant, café, pub or snack bar, but also a plus on schoolyard or sports hall. The table can be cleaned very easily and is almost vandal resistant. By the weight and form of a reel this table is almost impossible to overturn. The bottom plate invites to stand on while “hanging” at the table.

We cannot transport or move the standing table with a pallet truck, therefore the final destination must be reachable for our delivery vehicle or in a distance of 5 meters for the crane to put the table in place.

Parkbench Duo Concrete

£ 2,000.00 excl. VAT

(£ 2,400.00 incl. VAT)

(Secondary) schools are the ideal location for these benches. When placing multiple benches in a row, children can sit here in "train seats" with their backs to each other. This creates groups of up to 8 people who can be together. The benches have backs and can be placed on the pavement.

Additional possibilities:

When placing these duo benches in places that are more prone to vandalism, you can choose to mount an "Anchor Set" (HB.VS) on the underside of the legs and cover it with concrete. If you want to use this anchor set on an existing schoolyard, you need to dig 2 holes in the pavement, install the anchors and cover them with a bucket of concrete.

When you want to place these duo benches on a lawn, we advise you to use concrete slabs. On the picture of the product, you can see the "Base of the Picnic Set" (OP.PS). This results in a large concrete pavement in the grass, especially with the placement of several tables in a row. This is not always desirable.

This duo bench also fits on a "Set of Concrete Support Blocks" (OV.PP.SET). By using these concrete plates, more grass remains visible, which prevents a park from resembling a concrete pavement. These concrete foundation plates protrude 5 cm all around, in relation to the legs, so that the grass, which is difficult to mow, has no chance to grow directly on the legs.

Rubber damper

Product code: HB.FB.bumper

£ 2.75 excl. VAT

(£ 3.30 incl. VAT)

These dampers are at the end of the rods between the playing figures and the sidewall of the frame. The holes of the dampers measure 15mm and therefore will fit very tight around the rod of 16mm.

We have chosen rubber instead of steel springs, because our tables are intended for the outside. Rubber is much more resistant to all different weather conditions and in addition to that a game with HeBlad table football makes less noise through the use of rubber.

This product can be ordered as a complete set of 16 pieces, very handy if you want change all rubbers of the table.

Note: In order to slide the dampers over the rods, the players have to be removed first, to do this you need a hex key of 2.5 mm, which you can order on our site as well.
