Concrete High Table Anthracite

Product code: HB.ST.A

£ 2,350.00 excl. VAT
(£ 2,820.00 incl. VAT)

Convenience and beauty come together in the anthracite high table. With a weight of 985 kg, this standing table is ideal for safe outdoor use. Think of terraces, parks, schoolyards and sports facilities. The concrete and the shape make the standing table solid, robust and resistant to vandalism and weather influences. The sleek anthracite lacquer layer makes maintenance very easy and retains its beautiful colour. With the table top at a height of 113 cm, it is wonderful to 'hang about', which offers an inviting and attractive appearance.

Place the anthracite standing table separately or on a base plate

The design of this anthracite high table has been extremely well thought out. Thanks to its weight, the table cannot be pushed over and can therefore be placed loosely in the room. The fixed base plate is designed with its width and thickness to provide the table with stability. If the surface is not suitable for placing the standing table, it is optional to use a separate base plate. With an additional base plate, the standing table has a larger support surface and the weight is distributed over a larger surface. This means that e.g. the table sinks less quickly on a soft surface.

The anthracite standing table and other HeBlad products

In addition to the anthracite standing table, HeBlad has a huge range of outdoor products. All these products can be combined with each other thanks to their simplistic design and unity of appearance. For example, the standing table is a fantastic addition to HeBlad's ping pong tables. Made from the same high-quality concrete with the same hardness and weather resistance. This also applies to the

benches and picnic sets. Or perhaps a combination with the natural concrete high table will make your site more beautiful.

Discover the possibilities at HeBlad

Due to the size of the high table, it is important to view the delivery conditions before installing the anthracite standing table, or to contact HeBlad. For the delivery of this standing table, we'll work directly from the truck, or with a crane from the truck. This crane has a reach of five meters. We are happy to discuss your options and provide you with information and advice about other products.
