Get a good grip on the table football game with the handles for the football table from HeBlad. These rubber handles are intended to replace damaged or lost handles on the football table. They fit perfectly on the table bars, which have a diameter of 16 mm.
These bars should also be suitable for other football tables, provided the bars have a diameter of 16 mm. If you have any doubts about the suitability of the handles, please contact us.

Order handles
How do you order the handles? You can easily order all accessories for the football table online via the webshop. All parts of the table are available separately, so you can replace them yourself if necessary.
