Chess Table Anthracite-Concrete (4P)

Product code: GT.CH.AB4

£ 3,500.00 excl. VAT
(£ 4,200.00 incl. VAT)

With a top of 60 x 60 cm, in which the chess field is integrated, and four seats, this chess table is, in addition to a game of chess, also very suitable for a pleasant meeting outdoors. Use the two extra seats to teach others how to play chess or pour a nice drink and use the chess table as a regular outdoor table.

Concrete outdoor chess table for 4 people

Due to the weather resistance and beautiful flamed appearance of anthracite concrete, this chess table is a subtle addition to your garden, city park or schoolyard. Thanks to the base plate of 149 x 149 cm, this anthracite concrete chess table for 4 people can always be placed solidly and incredibly sturdy in all outdoor areas. Always consider the delivery conditions or contact us and we will discuss your options.

Outdoor chess table in various designs

If the space you have at your disposal is more suitable for a smaller game table, we recommend the anthracite-concrete 2-person chess table. The table loses two seats, so you can save space and retain the grace of the chess table. Would you like to stick with this colour, but could you make it a little more sturdy and robust? Then you must have the anthracite concrete chess bench! Truly a pleasure to the eyes, equipped with the same playing surface and included chess pieces.
All chess tables can also be supplied in natural concrete, you decide which colour best suits the environment. The composition, strength and weather resistance of the natural concrete chess tables and benches are the same as those of the anthracite concrete version.

22 November 2026 - Prices subject to change

Combine the chess table with other concrete game tables and benches

You love chess, your environment is excited by the game of chess or you want to make others enthusiastic about this mind sport. Invite the public and let them take a seat on the benches of HeBlad. Combine this game table with other game tables such as a concrete checkers table or ludo table. And of course don't forget our popular concrete table tennis table!

Please contact us

Our professionals at HeBlad are happy to tell you more about the specifications of our products and can accurately estimate the possibilities at your location.

Tips:
- The base plate is 149 x 149 cm. By removing 5x5 paving stones from the schoolyard, a space of 150 x 150 cm is created. The bottom plate of the chess table fits perfectly into this.
- If you want to place the table in a park or lawn, the surface can be excavated so that the base plate can be placed there, at cutting height.

* When ordering one chess bench you will receive 1 set of chess pieces for free.

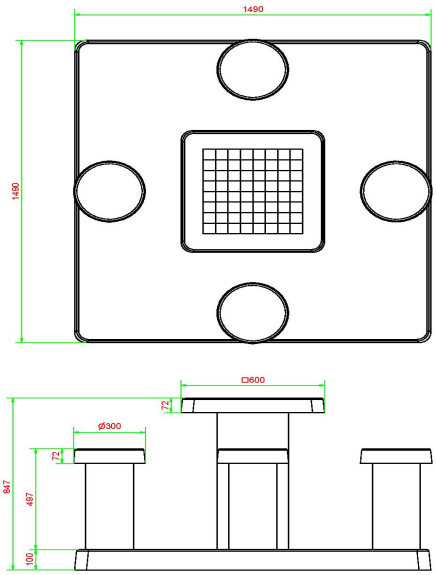

Our products are delivered from our factory in the Netherlands.
