Bench Standard Anthracite-Concrete

Product code: BB.ST.AB

£ 1,725.00 excl. VAT
(£ 2,070.00 incl. VAT)

This concrete bench is ideal for outdoor use due to its simplicity and solidity. Made in one piece and cast from anthracite concrete, this concrete bench is perfect for outdoors. The anthracite colour always remains beautiful, regardless of the weather influences it is exposed to. A beautiful, sturdy and practical piece of jewelry for your garden, square, park or grounds. Thanks to its sleek appearance, this concrete bench is attractive for any environment and can be used multifunctionally.

Anthracite concrete bench is multifunctional

With an ideal seat height of 50 cm, this anthracite concrete bench is a wonderful bench to sit on, even with 4 people at the same time. Because of the surface dimensions of the seat (175 x 30 cm), the sofa can also be used to display attributes.
In addition to the seating option and use as a table, the concrete bench with its 800 kg of strength can also serve perfectly as protection against ram raids or burglary. Or as a partition between different rooms or areas.

Combine concrete bench with concrete game table
The anthracite concrete outdoor bench can be easily combined with other benches and game tables from HeBlad. For example, place several anthracite concrete benches together or alternate with a standard concrete bench in natural concrete. All HeBlad concrete products are designed and manufactured to last a lifetime out of service. When ordering an extra concrete bench for outdoor use, you will receive a 17% discount and delivery is free.

Installation of concrete bench
HeBlad designs, produces and supplies high-quality products in-house. The anthracite concrete bench is placed at the location of your choice, subject to delivery conditions. If the surface on which the bench is to be placed is not or not completely suitable, it is advisable to place the concrete bench on a base plate. This is specially made for more stability and fits perfectly with the bench due to the same colour and material composition.
