Checkers/Drafts Table Anthracite-Concrete (4P)

Product code: GT.CK.AB4

Graceful, multifunctional and super strong. SThis table is suitable for four people and can be used as a checkers game and as a table. Because the seats and table are very firmly attached to the base plate, this checkers table can flourish in any room. The table and seats have the ideal height for seating. The table top has an integrated checkers game with 50 white and 50 black game squares, and you will receive the accompanying set of checkers for free from us. And if you do the preliminary work for installation, we will ensure that the checkers table is placed in the right place free of charge.

Checkers table or checkers bench

Our checkers tables and chess tables are slim in appearance. For a more robust version, you can also opt for the anthracite concrete checker bank. This offers space for two people in the form of a bench. The table top is also equipped with a checkers game, and the whole bench is cast from one piece of concrete. The shape, material and colour make this checkerboard a unique, robust addition to your site.

Concrete checkers tables

Checkers tables are equipped with separate seats and a stand-alone table. Does the anthracite concrete colour not quite fit in with the environment where you want to place the table? Then perhaps the checkers table natural concrete 2 persons or the checkers table natural concrete 4 persons is the product you need. With the same sturdiness and strength as the anthracite concrete checkers bench, these checkers tables in natural concrete shine because of their light colour. The
