

## A set of support blocks for different tables

Product code: OV.PP.SET

**£ 1,150.00** excl. VAT

(£ 1,380.00 incl. VAT)

A set of support blocks in natural concrete.

Dimensions are 122.5 x 20 x 6.5 cm.

This set consists of 2 concrete plates that are suitable for mounting on the bottom of table tennis table legs.

The set is suitable for all our ping pong tables, football volleyball tables and football tables.

Because the concrete slabs are 5 cm larger than the table legs after installation, the pressure per cm<sup>2</sup> is more than halved, so that the table cannot sink as quickly on softer surfaces. Think of the surface of wood chips or in sand.

There is also an advantage when you place these under feet under the table legs in the grass. It is then much easier to cut the grass against the legs.

Price only valid in combination with a ping pong table.
