With a large stock of ping pong balls, you always play the table tennis game with the right attributes. Just like the bats, the balls are made of plastic. This material can be easily cleaned and can be used outdoors.

The quality of the balls is so good that they are used by table tennis clubs as practice balls. But other associations and schools also order large quantities of balls from HeBlad. The delivery time is short, because we ship your order the day after you place the order with us.

There is also a discount for the box of 100 ping pong balls if you purchase multiple products at the same time from HeBlad.

Ping pong balls and table tennis tables

We will provide you with a free set of bats and balls with each table tennis table. And it is always up to you to decide what additional accessories to order. Do you have any questions about the delivery of the products and accessories? Please contact us, we will be happy to tell you more about the conditions and options.
