Park Bench Duo anthracite-concrete

Product code: BB.PBAB.DUO

£ 2,125.00 excl. VAT
(£ 2,550.00 incl. VAT)

A beautiful and practical addition to your property, playground or park. With its anthracite concrete colour, this concrete bench is a pleasure to the eyes and inviting to visitors to take a seat. The bamboo seat and backrest give the park bench a chic look, without sacrificing quality and durability.

Variants of the concrete park bench anthracite concrete

A fun way to create plenty of seating space is by placing several concrete benches together as a whole, or combine this variant with different versions of the park bench, to play with contrast. The other available version is a concrete bench in natural concrete, which has the same strength and specifications, but is lighter in colour.
Of the anthracite concrete colour appeals to you, we've got a wide selection to offer you. Take the standard anthracite oval concrete bench. With its robust appearance and playful oval shape, you provide your site with an attractive concrete seating area. The standard anthracite concrete bench is the straight version of this and can also be used as a solid blockage in addition to a seat.

Ping pong tables from HeBlad near the concrete park bench with duo seating

HeBlad is known for its solid ping pong tables. These are cast from one piece of concrete and can be found on many schoolyards and campsites. The anthracite concrete ping pong table matches perfectly with the concrete park bench with duo seat in anthracite concrete. This table offers the excitement you would expect from a ping pong table, but has a calm, natural appearance. For a little more safety, the rounded anthracite concrete table tennis table is the best option. The

rounded corners are specifically designed to prevent accidents. To be able to play table tennis with several people at the same time, HeBlad has designed the ping pong table round anthracite concrete. This guarantees a diversity of gaming options.

Wondering which concrete park bench or ping pong table suits you?

Are you curious about HeBlad products and would you like to know which benches or game tables suit your site? Please contact one of our specialists. We are happy to advise you and discuss your wishes and options. Additional options:

- When placing these duo benches in locations that are more susceptible to vandalism, you can choose to mount an "Anchoring set" on the underside of the legs and collapse them. If you want to use this anchor set on an existing schoolyard, you must dig 2 holes in the sidewalk and pour the anchors with a bucket of concrete after attaching them.
- If you want to place these duo benches on a lawn, we advise you to use concrete base plates. These create a large concrete surface in the grass, which is not always desirable, especially when placing several products next to each other.
- This duo bench also fits on a "Concrete Underfoot Set". By using this underfoot set, more grass remains visible, so that a park does not look like a concrete pavement. These concrete foundation plates protrude 5 cm all around compared to the legs, so that the grass that is difficult to mow has no chance directly against the legs.
