1 Liter Blue paint

Product code: HB.Paint-5005

£ 60.00 excl. VAT
(£ 72.00 incl. VAT)

Is it possible to paint game tables? In specific regard of the blue table tennis tables and the blue foot volleyball tables from HeBlad, 1 liter of blue paint (RAL 5005) can be ordered. With this you can easily touch up flaking or damaged parts of the blue ping pong table. Repairing is also much more sustainable than replacing the whole table. If you want to give the entire table a makeover, you can also order white paint to repaint the net and the white lines. With a new coat of paint, your ping pong table will be as good as new and can last for years.

Can a ping pong table be repaired?
The table tennis tables and other game tables from HeBlad are made to be used for many years and they are resistant to all weather conditions. Of course, our tables can also be damaged unexpectedly. Often it is not necessary to immediately replace the entire game table if it is damaged. Small irregularities can easily be touched up with the repair set.

HeBlad loves sustainability
HeBlad stands for sustainability. We produce robust products that last a long time. That is why we also offer the possibility to revive or repair our gaming tables if the table requires it. In this way, we ensure decades of gaming fun, without loss of comfort or beauty.

Do you want to know how to make your table as good as new, or which table fits best on your terrain? Then contact us, we are happy to help you on your way.
