

Bench DeLuxe with bottom plate and backrest Naural Concrete

Product code: BB.DL.OP

The most chic and extensive version of all HeBlad benches: Concrete Bench DeLuxe with base plate and backrest. The concrete bench and base plate are cast from one piece of natural concrete, making the bench incredibly sturdy, impossible to tip over and resistant to vandalism. This concrete bench owes the title DeLuxe to the bamboo seat and backrest. Both the concrete and bamboo are weather-resistant and made to last outdoors for years.

Why a base plate for the concrete bench?

In addition to a high degree of stability, a base plate also has the great advantage that the seating area always looks neat. No unwanted growth of grasses, moss or weeds under the bench. The base plate is placed in the grass at cutting height, so mowing the lawn around the plate is easy and you won't have to worry about edge cutting. Always have a well-maintained seating space.

How much space is needed around the concrete bench?

For this DeLuxe concrete bench with base plate and backrest, you must take into account a surface of 220 x 120 cm. It is also important for the delivery of the concrete bench that we can get within five meters of the installation location with our truck and crane. For additional information, please contact us or view the delivery conditions.

Tips for concrete benches

HeBlad's range of concrete benches is large, but which concrete bench is best to

buy? The first consideration will be made based on your taste. Do you like natural or anthracite? Do you prefer angular shapes or do you prefer round ones? In addition, the environment plays a role in determining the choice of colour, design and shape. The surface will also be a factor in your decision as to whether a base plate is desirable or not. The base plates can also be ordered separately from HeBlad.
