Product code: PS.DLA.RT

Because the benches are attached to a regular picnic table, a wheelchair user cannot easily sit at the picnic table. HeBlad has designed a picnic table that is wheelchair friendly by extending the tabletop on one side. This extension creates a free space of 60 cm deep and 71 cm high at the end of the picnic set. This makes the picnic table wheelchair accessible, the wheelchair user can simply sit at the table instead of next to it. How a small adjustment creates so many more opportunities.

Can the picnic table be placed outside in a wheelchair-accessible way?

All HeBlad products are specifically designed and produced to last a lifetime outdoors. The robust concrete and weather-resistant bamboo are the materials that can withstand all types of weather, even the extreme ones. The materials retain their beautiful appearance, but also their strength. The picnic sets, just like the game tables, benches and ping-pong tables, are also impervious to vandalism. Thanks to the weight and the fact that the products are made in one piece, the tables cannot be moved or damaged. This picnic table therefore remains wheelchair accessible, because the table cannot be rotated and the top cannot be broken off. Wheelchair friendly and lovely to sit at a beautiful picnic table in the open air.

In what colour can the picnic set be ordered?

This anthracite wheelchair accessible picnic set is painted in the colour RAL 7016. But the natural and anthracite concrete picnic sets are also available in a wheelchair-friendly variant. These variants have the same strength, specifications

Combine the picnic set wheelchair accessible

Because HeBlad products are all made from concrete and made in our own factory, the products can be combined very nicely with one another. Feel free to place a ludo table, ping pong table or checkers bench near your picnic table. Your site will only become more beautiful and visitors will not be bored.
