Bench DeLuxe with backrest Natural Concrete

Product code: BB.DL.ML

£ 1,975.00 excl. VAT
(£ 2,370.00 incl. VAT)

DeLuxe at HeBlad means that the seat is made of high-quality bamboo. Comfortable to sit on, a pleasure to the eyes and resistant to all weather influences. In addition to a bamboo seat, this DeLuxe concrete bench is also equipped with a bamboo backrest. A real eye-catcher on your site. The concrete bench is executed in natural concrete, cast from one piece of robust material. The seat and backrest are firmly mounted onto the concrete. To give the bench more strength to the surface, we recommend that you place the concrete bench on a base plate.

DeLuxe concrete bench without backrest

The concrete bench with a backrest offers more seating comfort and may be more pleasant to look at, but it can be more susceptible to vandalism because it can be pushed over with brute force. This can be prevented by using the base plate, placing the bench with the backrest against a wall or placing two benches with the backrests against each other. We have also developed the Concrete Bench DeLuxe without a backrest. This bench has the same natural concrete base and the same bamboo seat. This is what makes the concrete impervious to destruction.

Combine the concrete benches from HeBlad

HeBlad products are often made of rock-solid concrete. Because the Concrete Bench DeLuxe with backrest is also available in the colours anthracite and anthracite concrete, various combinations with the Concrete Bench DeLuxe are possible. You can also combine the Concrete Bench DeLuxe with the concrete
