Concrete Bench DeLuxe Oval Anthracite

Product code: BB.DLA.OV

£ 1,950.00 excl. VAT
(£ 2,340.00 incl. VAT)

A concrete bench, solid, robust and super strong. Yet elegant and graceful. The DeLuxe Anthracite Oval concrete bench combines beautiful and practical. The warm appearance is due to the sleek anthracite lacquer, the soft bamboo seat and the subtle oval shape. So at first glance it is a modest bench, but that does not apply to its lifespan.

What makes the DeLuxe concrete bench so strong?

The DeLuxe concrete bench, like all HeBlad products, is cast from one piece of concrete. The weight of the bench is therefore 550 kg. Not something that can simply be lifted. The concrete is also resistant to vandalism, the concrete bench is so strong that it is often used as protection for a building, to prevent ram raids. The robustness of the concrete bench makes it ideal for placing in a public outdoor area.

Where are concrete benches?

Public outdoor areas are often decorated with the DeLuxe anthracite oval concrete bench. But the benches are also very popular in private gardens, backyards or in school yards. What about camping areas and sports parks, often in combination with ping-pong tables or picnic sets from HeBlad? Because HeBlad items are produced and designed in the same way, they can all be placed together perfectly.

Concrete bench DeLuxe variants

In addition to the anthracite lacquered version, the DeLuxe oval concrete bench is also available in natural concrete and anthracite concrete. All three versions have the soft bamboo seat in the DeLuxe version. Would you rather not have bamboo on the concrete bench? Then the standard oval concrete benches are exactly what you are looking for. If you prefer straight shapes, you have a wide choice of standard concrete benches in different colours.

Base plate optional

An optional base plate can be ordered for each concrete bench. This gives the bench more stability and makes the space around the concrete bench easier to keep clean. The base plate is always optional and is not automatically supplied with the bench. You can always contact us if you have any questions about the base plate, the concrete bench or other HeBlad products. We'd love to hear from you.
